**STATEMENT OF WORK**

OBJECTIVE: This position is for a combination General Maintenance Worker/Warehouse & Forklift Operator/Truck Driver within the Facilities Services Section of the Naval Research Lab, Stennis Space Center, MS. The position has constant contact with the Facility Manager for Facility Services to receive service calls, communicate service call status, provide service call results and prepare updates on all self-managed and inspection responsibilities. This position has daily contact with customers, requiring reasonable tact, proper attire and excellent communication skills. Duties include management of select tasks with oversight by Facility Management Office. Possession of forklift license and Mississippi Class D (or equivalent) license is required, as well as knowledge of government safety/security protocols as well as operations.

**BASIC FUNCTIONS:**

General Maintenance-The following tasks are typical of this occupation: Record and track work requests by computer, escorting contractors and FOSC maintenance crews in unsecure area as required by NRLSSC security protocol. Minor wall repair (spackle/paint), hang pictures, whiteboards and corkboards, replace ceiling tiles, vacant office clean-up, powerwashing. Police grounds (pick-up/discard debris), collect refuse and salvageable materials, weed eater and leaf blower operation, trims trees and brush, repair and paint fences, gates, benches, tables, and outbuildings. Assist in repair of roads, walks, buildings and mechanical equipment. Performance of other assignments, which may not be recurring, may be required.
